

# Treasure Hunting

# Objectives

- To comprehend the real situation as an entrepreneur
- To realize the risk taking behavior of an entrepreneur
- To internalize the process of task performance and to have the first hand experiences of problems faced by entrepreneur and
- To identify the factors in decision making and facing the new problems

# Procedure

- All the students move out of the class
- Students will be divided into a group of 4 or 5 students and they will be blind folded
- Some valuable items will be kept in the class room and the blindfolded team will enter the class and try to find out the hidden items in the class room (in the entire process the team members will remain blindfolded)
- The person who could get maximum treasure will be identified as winner
